Track Your in-Game Progress

Invictus Lords tracks your progress using game provider APIs; No software required, no extra steps. Relax, play and come back to check your progress.

Compete With Others

Obtain your place in leaderboard by competing, higher ranking means more rewards.

Claim Your Rewards Daily

100,000 VON rewards are distributed daily among the leaderboards of all games. Players can redeem their rewards on the Ethereum network via Metamask.

Built right from the begining

Fair, decentralized and controlled economy for you, governed by you.

Controlled Inflation

Unlike the majority of current P2E games, VON token inflation is controlled and is fixed to 100K daily and is halving each 6 months (6 seasons). No insiders allocations. The token belongs to the players only. No hyper-inflation lords.

DAO in Mind

Invictus Lords is a movement to liberate players from playbour by giving them back their fair share of value. Its built to be completely decentralized and governed by players themselves. System is designed to generate profits that go to a decentralized treasury that DAO can allocate from, in order to maintain and govern the platform.

Ethereum Secured

Invictus Lords is built on Ethereum. No shitchains, unsecure networks or permissioned chains. Bringing decentralization to traditional gamers. No single authority controlling your hard-earned assets anymore.

Join The Move

First Sign Up

A first step to start play, enjoy & earn is to sign up with your steam account, and connecting your metamask wallet.

Pick Your Favorite Games

After signing up, the next step is to pick as many as you want of your favoured games available on the platform.

Estimating Your Score

The system estimates your score according to your competence, performance & winning rates for each game.

Ranking In Leaderboard

After estimating your score, now you're able to attain your rank in leaderboard and compete with other players; the higher your rank is, the more you gain.

Ecosystem and tokenomics

Invictus Lords is on a mission to liberate gamers from gaming industry exploitation through tokenization of effort and decentralization of assets. Join the movement.
